The Maintenance Professional's Choice

## SOLVENT DEGREASER

### SOY-BASED

55815

**FOR USE ON:**

- Industrial Parts and Equipment
- Automotive and Aircraft Parts
- Engines
- Tools
- Printing Presses
- Concrete Floors
- Motors
- Construction Equipment
- Pumps
- Generators and More!

**FOR USE ON:**

- Meat Processing Plants • Bakeries and Dairies
- Packaging Equipment
- Milling Equipment and Machinery
- Machining and Parts Manufacturing Equipment

As the world searches to solve environmental issues, CPC Aeroscience has discovered how to turn a simple bean men have grown for thousands of years into an industrial cleaning phenomenon. The ever popular soy bean, a high protein ingredient used in tofu and many other foods, is revolutionizing the cleaning world. Processed soy beans produce an oil that can be further refined into a solvent-like liquid with incredible cleaning properties. Using this discovery, CPC introduces Solvent Degreaser Soy-Based, the first soy bean oil-based aerosol cleaner / degreaser. Solvent Degreaser Soy-Based contains almost NO VOC's (Volatile Organic Compounds) known to contribute to low level ozone or smog. Solvent Degreaser Soy-Based is non-toxic and has no strong smell, fumes or vapor. It is a non-petroleum-based, biodegradable product derived from a renewable American-grown resource (soy beans). It removes grease, oil, sludge, dirt, tar, asphalt, adhesive, wet paint, and more without harming the cleaning surface.

- Great Cleaning Action - Penetrates, Dissolves and Lifts Away Grease and Grime
- Non-Corrosive • Plastic Safe
- Controlled Evaporation - Extended Contact Time for Increased Cleaning Power
- Flash Point Over 200°F - Reduces Fire Hazard
