The Maintenance Professional's Choice

POPCORN CEILING PATCH

77215

FOR USE BY:

- Office Buildings • Retail Stores
- Hospitals • Hotels • Motels
- Industrial Plants
- AC Maintenance
- Shopping Malls
- Apartments

Specially designed to repair dings, scrapes, runs, holes and gouges in popcorn and sprayed-on plaster ceilings. Dries quickly to a clean, white, rough surface that can be painted after drying. The coating adheres to many surfaces. Ideal for blending into popcorn ceilings all types of tubes or pipes connecting to ceiling fans and other electrical devices or plumbing. When used as directed, provides an invisible ceiling repair.

FOR USE ON:

- Cracks, Voids, Gouges, and Broken-Out Areas of Popcorn Ceilings
- Recommended for Repairing Drywall around Electrical Devices and Plumbing

- Dries Fast to a Clean, White, Rough Surface
- Can be Painted after Drying
- Ideal for Blending into Popcorn Ceilings and All Types of Tubes or Pipes including Plumbing and Ceiling Fans

- Highly Durable
- Fills and Repairs Cracks, Voids & Gouges
- Durable, Flexible and Water Resistant
